This evening is Co-Ed & Open to All

Was your coming-of-age empowering?

Or is there a knot in your stomach when you think of your adolescence?

Since most **women** were never welcomed into womanhood, many consider their periods “nuisance,” “bother,” or “the curse.” For **men**, the lack of a significant Rite-Of-Passage often translates into different “curses” in their lives.

An evening of inspiration, that will provide you with steps for healing discomforts from your adolescence, and inspire you to create a different experience for today's youth!
